

Fastmarkets RISI

Policies, processes and control activities relating to selected price assessments and their adherence with the International Organization of Securities Commissions ("IOSCO") Principles for Oil Price Reporting Agencies ("PRA Principles")

31 March 2022

DISCLAIMER – This report has been prepared to reflect how RISI Inc., which operates under the brand Fastmarkets, has applied the IOSCO Principles for Oil Price Reporting Agencies across its relevant price assessments and specifically to address Principle 2.21. BDO LLP ("BDO") has been selected to fulfil the requirements of Principle 2.21 which requires "*An external auditor... to review and report on the PRA's adherence to its stated methodology criteria and with the requirements of the principles*".

For the avoidance of doubt, Fastmarkets RISI and BDO accept no duty of care or responsibility to the recipient or any other party into whose hands this report may come and you are not permitted to copy or forward the report to any other parties.

Price Assessment Framework

Overview

Policies, processes and control activities relating to selected price indices and their adherence with the International Organization of Securities Commissions ("IOSCO") Principles for Oil Price Reporting Agencies ("PRA Principles")

Price Assessment Framework Overview

Introduction

The International Organization of Securities Commissions ("IOSCO") published the PRA Principles for Oil Price Reporting Agencies ("PRAs") (thereafter, the "Principles") on 5 October 2012. These were consequently endorsed by the G20 in November 2012. They cover governance, control, integrity and conflict management in relation to commodity benchmark price assessments published by PRAs. At present, PRAs are encouraged to extend adherence to the principles to other commodity benchmark price assessments, not just those relating to oil. Fastmarkets provides benchmark commodity metal price assessments for the global metal industry and benchmark forest products assessments and indices for the global forest products industry. Fastmarkets, in keeping with its commitment to provide commodity prices that are fair, consistent and reliable, has voluntarily adopted and implemented the Principles.

BDO LLP ("BDO") has been appointed to provide independent assurance over Fastmarkets RISI's ("Fastmarkets") policies, processes and control activities listed in Section IV – "Fastmarkets' Response" in respect of its adherence to the Principles, with respect to the in scope commodity forest products price indices.

In 2013, the European Commission published a proposal for Benchmarks Regulation ("EU BMR" or "BMR"), which came into effect in January 2018. The regulation's stated aim is to restore confidence in the accuracy, integrity and reliability of benchmarks. It ensures that benchmarks are not subject to conflicts of interest, are determined in line with published methodologies and reflect the actual market or economic reality they are intended to measure. Pursuant to this regulation, Fastmarkets Benchmark Administration Oy ("FBA Oy") was incorporated in December 2020 and authorised as an administrator by the Finnish Financial Supervisory Authority ("FIN-FSA") in February 2021. This includes an independent Board of Directors and its Benchmark Expertise & Oversight Committee ("BEOC"), which is comprised of senior members of Fastmarkets. Both meet quarterly to review policies & procedures related to the supervised benchmarks.

As permitted by the BMR, FBA Oy has outsourced certain functions including the running of external audits to Fastmarkets and its legal entities that have operations supervised under the BMR, including Euromoney Global Limited. With the approval of FBA Oy, Fastmarkets has engaged BDO LLP to provide independent assurance over its statements of adherence to the IOSCO PRA Principles, contained in Section IV of this report, with respect to metals benchmarks in scope and other price assessments.

As per guidance by the European Securities and Markets Authority ("ESMA") in December 2019, this assurance review is sufficient to demonstrate compliance with the requirements of BMR for commodity benchmarks (paragraph 18 of Annex II).

The list of benchmarks is reviewed annually by FBA Oy who approves the letters of engagement of the external independent auditor and schedule of audits.

None of the audited prices in this report are currently in scope of BMR.

Principle 2.20 of IOSCO is not in scope for this report because the principle is a statement of intention.

Overview

Fastmarkets publishes news, fundamental data, pricing information and other analysis for the metals, mining, forest products and agriculture markets and acts as the operational brand of RISI, which is a wholly owned subsidiary of Euromoney Institutional Investor Plc ("the Group").

Fastmarkets aims to provide leading pricing intelligence, including independent industry price assessments and indices, for the metals, mining, forest products and agriculture industries. The group's global portfolio of news, analysis, conferences and insight services complement these price assessments and indices.

Our price reporters assess more than 5,000 non-ferrous, ferrous, raw material and non-metallic mineral prices, as well as pulp and paper, wood products, timber and biomass, nonwovens and grains and biofuel prices, many of which are the industry-standard price assessments and indices that are trusted and used across the industry supply chain.

Fastmarkets is a completely impartial and independent PRA - it engages with all sides of the market including sellers, buyers and traders, during the price-discovery process

Our assessments and indices are used by our clients for contract pricing and internal applications. The world's major exchanges (such as SGX and CME) use our prices to settle financial and risk management contracts.

Our team of reporters have a leading breadth and depth of metals, minerals, forest and agriculture products expertise; our footprint ensures global coverage. Our market reports, commentary and analysis deliver in-depth data on the metals, mining, forest and agriculture products markets, allowing businesses to understand and track key changes in the markets and to stay competitive.

Whether for the production, trading, purchasing or consumption of metals, Fastmarkets can ensure organisations have a comprehensive package of dependable prices and actionable market intelligence. Fastmarkets can provide data to businesses, delivered to suit any needs, including XML data feeds.

Fastmarkets' business is defined by the integral position of its data within the markets it serves. Over time, the prices assessed and published by Fastmarkets have become the established price assessments used by the industry for reference pricing in contracts and enabling trading in many markets to function effectively.

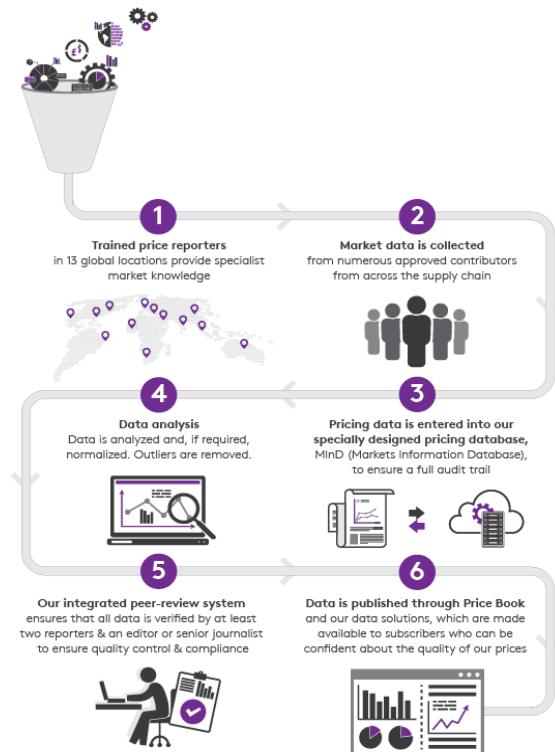

The market shift towards price assessment and index benchmarking has also brought greater scrutiny to the processes in terms of compliance. Fastmarkets has applied industry-wide principles that have been laid down primarily for the oil and energy markets and is now able to use that as an additional competitive advantage, underlining the credibility and integrity of the business and the data it provides.

The proliferation of the use of its data as price assessments and indices has allowed Fastmarkets to go through a rapid business change across the organisation that puts the emphasis on being a PRA. This has led to a shift in the way our data and content is monetised and has allowed us to adopt a new data licensing strategy alongside our traditional subscription-based model.

To augment the high-quality data we produce, Fastmarkets provides key exchange data to complement the physical price assessments and indices it provides through a highly versatile and configurable desktop application that can be scaled into the vertical sectors of the markets it serves.

The investment and changes that the Group is making in Fastmarkets are examples of the strategy of investing in big themes, such as price discovery, to position the Group for future growth.

CONTROL ENVIRONMENT

Methodologies

Wholly independent and transparent methodologies and price specifications are central to Fastmarkets' price assessments.

Code of Conduct

Fastmarkets has a Code of Conduct that sets guidelines for employees to adhere to during their daily business activities. All Fastmarkets employees must act with the highest standards of personal and professional integrity and comply with all applicable laws, regulations and Fastmarkets' policies.

Policies and Procedures

Fastmarkets uses a range of policies to ensure that its quality and integrity standards for market data are followed by its employees. Policies and procedures are incorporated into the Fastmarkets' Compliance Manual ("The Compliance Manual").

The Compliance Manual incorporates:

- Code of Conduct
- Data Submitter Policy
- Contributor Approval Policy
- Methodology Review and Change Consultation Process
- Corrections, Delays and New Pricing Launch Procedures
- Complaints Handling Policy
- Gifts, Entertainment & Hospitality Policy
- Pricing Procedure
- Antitrust and Competition Law Handbook
- PRA Editorial Hiring guidance

The majority of Fastmarkets' policies and procedures are publicly available; those that are not are internal documents that contain confidential information. Fastmarkets' policies and documents are reviewed on at least an annual basis.

Training, Development and Recruitment

Fastmarkets employs highly skilled market assessors who are sufficiently trained and experienced, including the ability to cover markets if a primary market assessor were to become unavailable, as needed. If a primary market assessor is covered by another market assessor who is not active in that first market, that second assessor is cross-trained on a monthly basis, depending on their experience and day-to-day duties. New employees go through a stringent on-boarding process that includes mandatory training on an intensive basis.

Segregation of Duties

Fastmarkets functionally separates departments, job functions and system access that are incompatible with the pricing division or would create an appearance of a conflict of interest. The editorial department is segregated from the Marketing and Sales departments.

Price Database and Two-Level Approvals

Fastmarkets has unique systems and technology infrastructure that ensure data integrity at every stage. Fastmarkets' price database, Market Information Database (MInD), enforces strict pricing procedures, security of data, consistency and accountability. Used by Fastmarkets' entire network of global price reporters, MInD's integrated peer review system ensures that all prices are verified by at least two reporters in addition to the first assessor before publishing and guarantees full auditability.

External Auditing

RISI Inc. engaged BDO to provide independent assurance over Fastmarkets' description of the policy statements, processes and control activities as at 31 March 2022 relating to the in scope price assessments to address the IOSCO Principles.

Scope

The following list specifies the price assessments that are included within the scope of this assurance:

Section II:

Directors' Statement of Adherence

Directors' Statement of Adherence

As the Directors of Fastmarkets, we are solely responsible for and have designed, implemented, operated and monitored compliance with policies, processes and control activities that adhere to the Principles for Oil Price Reporting Agencies published by the International Organization of Securities Commissions (the "PRA Principles") for the in-scope price assessments listed in Section I.

We are also responsible for this Statement of Adherence and Fastmarkets' Response to the PRA Principles presented in this report including the policies, processes and control activities designed to address the PRA Principles.

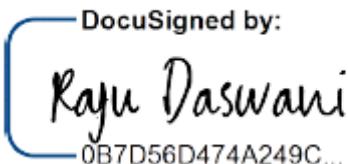

We confirm that:

For Category 2 price assessments:

- Section IV of the accompanying report fairly presents the Company's detailed responses to the PRA Principles as at 31 March 2022.

For Category 1 price assessments:

- Section IV of the accompanying report fairly presents the Company's detailed responses to the PRA Principles as at 31 March 2022.
- The processes and control activities over Category 1 price assessments have operated as described, throughout the period from 1 April 2021 to 31 March 2022.

Section III:

Independent Assurance Report

Independent Practitioner's Assurance Report to the Directors of RISI Inc. (the "Company"), in respect of the Company's response to the Principles for Oil Price Reporting Agencies

We were engaged by RISI, Inc. (the "Company") to report on the Company's accompanying description of the policies, process and control activities as set out in Section IV, that have been put in place to adhere to the Principles for Oil Price Reporting Agencies published by the International Organisation of Securities Commissions (excluding Principle 2.20, the "PRA Principles") as at 31 March 2022 for both category 1 and 2 benchmark price assessments listed in section I. In addition, for Category 1 benchmark price assessments, we also report on whether the process and control activities identified in the Company's Response have operated as described, throughout the period 1 April 2021 to 31 March 2022.

Responsibilities of the Directors

The Directors are responsible for preparing the Statement of Adherence to the PRA Principles, set out and supported by the detailed responses to the PRA Principles in Section IV. They are also responsible for ensuring that the Company designs, implements and monitors compliance policies, process and control activities that adhere to the PRA Principles.

The Directors shall ensure that the results of the audits are immediately reported to the Board of FBA Oy, who shares them with the FIN-FSA and makes them publicly available where required under the BMR. If requested, the Directors shall arrange for FBA Oy to meet with BDO and ask questions about performance related to the provision of benchmarks and the quality of the audit.

Our Responsibilities

Our responsibility is to undertake an assurance engagement and examine the Company's detailed responses to the PRA Principles, as set out in Section IV, in respect of the in scope price assessments, and report thereon in the form of an independent assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with International Standard on Assurance Engagements (ISAE) 3000 Revised, Assurance Engagements Other Than Audits or Reviews of Historical Financial Information issued by the International Auditing and Assurance Standards Board and with regard to the ICAEW's guidance within Technical Release Tech 02/14FSF 'Assurance reports on benchmarks and indices'.

That standard requires that we comply with ethical requirements, including independence requirements, and plan and perform our procedures to obtain sufficient evidence to express a meaningful level of assurance report in connection with Company's Response to the PRA Principles, as set out in Section IV, in respect of the Category 1 and Category 2 price assessments. In connection with the Category 1 benchmark price assessments, we report to you, in our opinion, based on the results of our work (which is further described below) whether the Company's Response in Section IV is fairly stated, in all material respects as at 31 March 2022 and whether the process and control activities therein have operated as described during the period 1 April 2021 to 31 March 2022. With regards to Category 2 benchmark price assessments, we report to you, based on the results of our procedures, whether anything has come to our attention to indicate that the Company's Response to the PRA Principles in respect of Category 2 benchmark price assessments, as at 31 March 2022, are not fairly stated in all material respects.

Scope of the Assurance Engagement

The objective of an assurance engagement is to obtain such appropriate evidence as we consider sufficient to enable us to express our conclusions. The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent, than for a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Our engagement includes examination, on a test basis, of evidence relevant to assessing (i) the Company's Response to the PRA Principles, excluding Principle 2.20, for both Category 1 and Category 2 benchmark price assessments, and (ii) whether process and control activities have operated as described in respect of the Category 1 benchmark price assessments throughout the year 1 April 2021 to 31 March 2022. Our

procedures are described in the Practitioner's Testing column in Section IV of this report. The procedures selected depend on our understanding of the Company's Response to the PRA Principles and other engagement circumstances, and our consideration of areas where material misstatements are likely to arise, whether due to fraud or error.

Our procedures were not sufficient to enable us to conclude on the suitability of design of the policies process or control activities in place to address the PRA Principles. While the Company's response may be informed by the need to satisfy legal or regulatory requirements, our scope of work and our conclusions do not constitute assurance over compliance with those laws and regulations.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

Conclusions

Reasonable assurance opinion

In our opinion, based on the results of our procedures:

RISI, Inc.'s Response to the PRA Principles, with the exception of Principle 2.20, in respect of Category 1 benchmark price assessments, as set out in Section IV, as at 31 March 2022 is fairly stated in all material respects; and

The process and control activities have operated as described, throughout the period 1 April 2021 to 31 March 2022.

Limited assurance conclusion

In our opinion, based on the results of our procedures, nothing has come to our attention to indicate that RISI, Inc.'s response to the PRA Principles, with the exception of Principle 2.20, in respect of the in scope price assessment, as at 31 March 2022 is not fairly stated in all material respects.

Restriction of Use of Our Report

This report is made solely for the use and benefit to the Directors in connection with principle 2.21 of the PRA Principles. Our work has been undertaken in accordance with our agreement dated 17 January 2022 so that we might state to the Directors those matters we are required to state in an independent assurance report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility and deny any liability to any party other than the Directors and the Company for our work, for this report, or for the conclusions we have reached.

Our report is released to Directors on the basis that it shall not be copied, referred to or disclosed, in whole or in part, without our prior written consent.

Other information

The information included in Section I describing the Company's Overview, Corporate Structure and Governance, reporting best practice and in scope benchmark price assessments are presented by the Directors to provide additional information and is not part of the Company's Response to the PRA Principles. Such information has not been subjected to the procedures applied in the examination of the Company's Response to the PRA Principles, related to the reporting of benchmark price assessments, and accordingly, we express no opinion on it.

Principles, Fastmarkets' Response and Practitioner's Testing

Principles, Fastmarkets' Response and Practitioner's Testing

Introduction

The table below sets out the response of Fastmarkets RISI ("Fastmarkets") in terms of how it adheres to each of the PRA Principles. Fastmarkets' Response is separated into Context, Policy Statements and Process and Control Activities.

The accompanying 'Practitioners' Testing' summarises the work performed by BDO to validate that the Policy Statements and Process and Control Activities, summarised by Fastmarkets, are reflective of working practices. This supports the Directors' Statement of Adherence and Independent Assurance Report as documented in Sections II and III, respectively.

Whilst Fastmarkets' Response is a combined response for all the selected price assessments in scope, the Practitioner's Response is split into Category 1 and Category 2 price assessments, where necessary, to appropriately reflect the extent of work performed for each Category, mainly in consideration that Category 1 and Category 2 price assessments are undergoing reasonable assurance and limited assurance reviews respectively.

The validation approach is summarised below:

Fastmarkets' Response	Practitioner's Testing		
	Category	Tagging in the table below	Validation Approach
Context	N/A	N/A	Where used, this section includes background information only and therefore was not validated.
Policy Statement (PS)	Category 1	Category 1 - Policy Statement	Checked for existence of the Policy or Methodology in line with what has been described in Fastmarkets' Response as at 31 March 2022.
	Category 2	Category 2 - Policy Statement	Checked for existence of the policy or methodology in line with what has been described in Fastmarkets' Response as at 31 March 2022.
Process and Control Activity (PCA)	Category 1	Category 1- Process Control Activity	Checked on a sample basis of whether a process and control activity has operated as described in Fastmarkets' Response throughout the period of 1 April 2021 to 31 March 2022.
	Category 2	Category 2- Process Control Activity	Checked an example of whether a process and control activity has been put in operation as described in Fastmarkets' Response as at 31 March 2022.

Where:

Category 2: Price assessments where BDO is providing limited assurance over Fastmarkets' Response to the PRA principles with respect to these price assessments as at 31 March 2022 and;

Category 1: Price assessments where BDO is providing reasonable assurance over both Fastmarkets' Response to the PRA principles with respect to these price assessments as at 31 March 2022 and that any processes and control activities related to the price assessment have operated as described throughout the period from 1 April 2021 to 31 March 2022.

IOSCO Principle	Fastmarkets' Response	Practitioner's Testing
Changes to a Methodology		
<p>1.5 A PRA should adopt and make public to stakeholders explicit procedures and rationale of any proposed material change in its methodology. Those procedures should be consistent with the overriding objective that a PRA must ensure the continued integrity of its price assessments and implement changes for good order of the particular market to which such changes relate. External Auditing		
2.21 A PRA should appoint an independent, external auditor with appropriate experience and capability to review and report on the PRA's adherence to its stated methodology criteria and with the requirements of the principles. The first resulting audit should be completed within one year of the publication of the principles by IOSCO and its results published within fifteen months of the publication of the principles. Subsequent audits should take place annually and be published three months after each audit is completed with further interim audits carried out as appropriate.	<p>Context</p> <p>Euromoney Global Limited has engaged BDO to carry out an assurance review of the independent responses contained in this report on how Fastmarkets' policies, process and control activities relating to its price assessments address the IOSCO Principles for Oil Price Reporting Agencies.</p>	<i>This principle is covered by this assurance work and the ultimate report.</i>
